EDUCATION

Vivek College of Commerce, Mumbai University, India   *Jun 2016- May 2019*
Bachelor of Science in Information Technology   *CGPA: 9.53/10.00*
Courses: Object Oriented Programming, Web Programming, Python Programming, Database Management Systems, Mobile Programming, Core Java, Software Engineering, Software Project Management, Advanced Web Programming, Linux Administration, Enterprise Java, Software Quality Assurance, Security in Computing, Business Intelligence, Principles of GIS

WORK EXPERIENCE

Cognizant *(Associate – Project - Mumbai, India)*   *March 2022 – Present*
- Working as a .NET Full Stack Developer.

Capgemini (Sr *Software Engineer - Mumbai, India)*   *June 2019 – Feb 2022*
- 3+ years of experience in Design, Development and Implementation of various web applications using Microsoft .NET Framework, C#, SQL
- Good experience of .Net development (C#.NET v4+, Visual Studio, ASP.NET MVC, Angular)
- Produced high-quality code with minimal defects. Actively seeks to minimize code and simplify architecture
- Revise, update, refactor and debug code and improve existing software.
- Developed documentation throughout the software development life cycle (SDLC)
- Served as an expert on applications and provide technical support
- Develop and maintain custom data-centric web applications using ASP.NET, C#.NET, and Services with Agile/SCRUM methodology
- SDLC support tools (JIRA, ServiceNow)
- Knowledge of the full stack tools used to deploy and manage web applications; CD/CI with Git and Jenkins.
- Troubleshoot complex production issues and provide detailed RCA.
- Participated in agile activities like sprint planning, and technical design reviews; provide input as appropriate
- Excellent time management skills and ability to prioritize

PROJECTS

Web Application   Angular, ADO .NET, LINQ, EF, WPF, MVC, SQL Server, C#, WebAPI
- Created the Web application using ADO.NET Entity Data Model in WPF, SQL Server for the backend and used ADO.Net or LINQ and EF.
- Developed the Web application using ASP.Net MVC where created the Model component corresponds to all the data-related logic, View component for all the UI logic of the application and Controllers for the Model and View components to process all the business logic.
- Built a responsive web application using Angular and ASP .NET Web API.
- Created the database table, developed ADO.NET Entity Data Model
- Created the Web application in Angular 8 i.e., all the components to provide the UI that will consume the Web API and used Bootstrap for styling the UI.
- Tested the Web API using Postman.
- Created Service for Accessing RESTful API

TECHNICAL SKILLS

Programming Languages	Python, C#
Web Development	C#.NET, ASP.NET, VB.NET, AJAX, MVC, JavaScript, jQuery, HTML, CSS, MS Visual Studio, LINQ, SQL Server, and Active Directory, C#.NET, ASP.NET, VB.NET, AJAX, MVC, JavaScript, jQuery, HTML, CSS, Bootstrap, ASP .NET Web API.
Databases	MS SQL, SQL Server
Version Control	Git/GitHub, Bitbucket and Azure Repos
Cloud	Microsoft Azure, Azure DevOps
Methodology	Agile, SCRUM & Kanban
PM Tools	Jira, Confluence & Azure Boards

ACHIEVEMENTS

- **1st Rank in B. Sc.IT**, Vivek College of Commerce, Mumbai University (*2019*)
- **3rd Rank in Full Stack .NET** training provided by the **Capgemini.**

CERTIFICATIONS

- Microsoft Certified: Introduction to Programming using JavaScript.
- Microsoft Certified: Azure Fundamentals
- SCRUM study | Scrum Fundamentals Certified (SFC)
- ICSI | CNSS Certified Network Security Specialist
- Aviatrix Certified Engineer - Multi-Cloud Network Associate
